

## GRIT GHBK

Module with infinitely variable chamfering angles and depths for machining edges.

Module with infinitely variable chamfering angles and depths for machining edges.

Product number: 9 90 01 012 04 0

### Details

- > Little effort needed even when working with large workpieces thanks to the roller-mounted guide blocks.
- > Infinitely variable chamfering angles (0°-60°) and depths (0-20 mm) for the most common requirements.
- > Highly efficient when chamfering long and straight plates.
- > Precise edges and homogeneous surfaces in one step with effective grinding results.
- > System interface - tool-free conversion on relevant grinding systems.
- > Clean work areas thanks to removable dust collecting vessel and interface with extraction unit.
- > Module can be used with GHB 15-50 and GHB 15-50 Inox, depending on sanding tasks in hand.

### Price includes

- ✓ 1 x dust and spark box
- ✓ 2 x anti-vibration handles
- ✓ 1 x fixing element
- ✓ 1 x spark protection cover

### Technical data

#### TECHNICAL DATA

Dimensions LxWxH

380 x 430 x 215 mm

Belt size

50 x 1,000 mm

Weight

13.5 kg
