

HYCON HCD50-200 CORE DRILL

PRODUCT FEATURES

The HCD50-200 core drill is the most powerful and easy manageable handheld core drill available. Perfect for any handheld coring in difficult accessible places where rigs or electric drill is not possible to use.

Drilling in concrete pipe, ventilation holes or just any type of job where handheld is just the fastest way to get the job done. It is unaffected by water, dust, etc. and is very popular for sewage installations. The fact that you can drill handheld up to $\varnothing 350$ mm and with no need for a drill rig opens up a

world of opportunities and massive time savings. However, for tough jobs it fits in a standard drill rig.

The core drill comes with a build in hydraulic torque limiter, which assures max torque and no kickback if the core drill jams. The core drill has an automatic integrated security switch, which stops the core drill if the core bit jams. However, in case of jamming, always loosen the core bit from the material, before you start drilling again. The integrated security is set from the factory and may not be disturbed.

HYDRAULIC CORE DRILL HCD50-200

Item no. HCD50-200, 20 l.p.m.	3030050
Weight, kg	7,6
Working pressure, bar	100
Max pressure, bar	172
Oil flow l.p.m.	20
R.p.m./drilling diameter, mm	600/ $\varnothing 50$ - $\varnothing 350$
Driver adaptor	1/2" BSP Female with an 1-1/4" UNC male
Noise level LPA dB	80
Vibration level, m/s	<2.5

Optional Dust suppression kit
Item no. 3030051
