

HYCON HPP06 POWER PACK

PRODUCT FEATURES

The mantra for the HPP06 is to keep it simple and small - but powerful. It is the ultimate compact and lightweight power pack.

Being the smallest power pack in the HYCON product range, it is lightweight and easy to handle, but will provide

sufficient power to many HYCON tools with only a very low fuel consumption.

This makes the HPP06 an ideal choice for the rental or light construction business.
