

HYCON HWP3 SUBMERSIBLE PUMPS

PRODUCT FEATURES

The HWP3 water pump weighing only 11 kg has a capacity up to 85 m³/h per hour making it extremely powerful compared to weight.

Even though a 3" pump, the outside diameter is only 30 cm making it suitable for many applications, even in narrow spaces. The VORTEX design ensures long lifetime and no downtime even in the demanding construction business. It will work all day every day, because of the Hydraulic direct drive motor that will make sure that the pump can run dry without damage to the motor or seals.

*PLEASE NOTE: 10 m. Discharge Hose Kit (incl. 3" BSP Male coupling) is not included in the pump.
