

Husqvarna SMART 40

Husqvarna Smart is our most powerful concrete vibrator for professional customers. It is an electronic high frequency vibrator with an intelligent, integrated frequency converter, combining reliability and performance with the latest technology. The high centrifugal force, stable speed and high amplitude ensure excellent concrete vibration with fewer dips. It's ergonomic design reduces hand/arm vibrations, while the lengthy cable and hose provide exceptional reach.

Smart ergonomics

The innovative motor-in-head design ensures vibrations stay inside the concrete, where they belong, instead of in your hands and arms.

Extend your reach

Fifteen meters of cable and up to ten metres of hose provide you with exceptional reach around the worksite.

Powerful and reliable

Constant vibrations at 12,000 vpm ensures high centrifugal force, stable speed and high amplitude, which results in excellent concrete vibration with fewer dips in any type of concrete slump.

Plug-and-work

Built-in frequency converter means any regular wall socket with the appropriate voltage is all you need to plug in, power up and start working.

FEATURES

- Powerful and reliable
 - Extend your reach
 - Smart ergonomics
- Plug-and-work
 - Less noise, no emissions
 - Fixed green light means ready

Technical Specifications	
ENGINE	
Output power	0.4 kW
SPECIFICATIONS	
Phases	1
Frequency	50/60 Hz
Voltage	115 V
DIMENSIONS	
Hose length	5 m
Tube diameter	40 mm
PACKAGING	
Packaging length	813 mm
Packaging width	575 mm
Packaging height	208 mm
Packaging volume	97 dm³
