

HYCON HH20RV BREAKER

PRODUCT FEATURES

HYCON HH20RV is a compact all-round 24 kg breaker with reduced vibration (32x160 hex). Despite low weight, it handles even the toughest jobs.

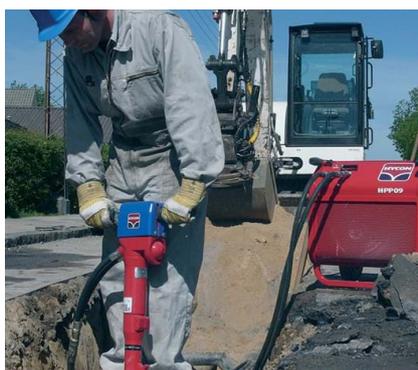

It is designed for breaking concrete, asphalt, frozen ground, brick wall etc. Because of the very efficient vibration-reduced handle, it has a vibration level of only 4.8 m/s², which is among the lowest vibration levels in the market, ensuring

maximum operator protection. HH20RV is the preferred choice of municipalities, contractors, utilities etc. and is perfect for rental. Furthermore it performs similar or better than any 30 kg electric breaker.

The breaker can be connected to the HYCON power packs and other hydraulic power sources.

HYDRAULIC BREAKER HH20RV

Item no. HH20RV (HEX 32x160 mm)	1010120
Weight, kg	23,9
Oil flow, l.p.m.	20
Working pressure, bar	110
Max pressure, bar	160
Blow frequency, 1/min	1480
Blow energy, J	60
Noise level 1m LPA dB	94
Noise level 1m LWA dB	106
Vibration level (3 axis) m/s ²	4,8

Optional:
Dust suppression kit, Item no. 1113286
HYCON Water Container, Item no. 3030051
