Features and Benefits

The HBM230UW Single Brush Machine is a multipurpose hydraulic powered tool which can be used for many types of cleaning operations. It can also be set up and used as a 9" grinder by fitting the included grinder guard and disc flange set.

The Brush Machine is supplied as a starter kit with a range of nylon and wire brushes included, other different types of brushes are also available.

As well as propeller cleaning tasks this machine can be used for hull cleaning operations in areas that are too tight for access with other cleaning machines, notably around the stern areas.

The tool is provided with a guarded on/off trigger to prevent accidental operation.
